Specifications

Invitation to Bid and Instructions to Bidders

The Maple Run School District (MRUSD) will be accepting bids from **General Contractors (GC)** for various projects within the building located at the St. Albans City Elementary School (SACS) located at 29 Bellows Street in St. Albans City, VT. Projects involve window and door replacements along with a full building Fire Alarm upgrade as shown and outlined in the contract documents within this RFP. The GC will be the lead contractor for this project.

BASE BID PROJECT SCOPE:

This project consists of removing the old windows and doors along the front of the building (which faces towards the parking lot), replacing them in a different configuration, removal and replacement of windows on the mezzanine level, and upgrading the Building's Fire Alarm system completely. An alternate for this project is listed as the eleven (11) windows located in the back of the building. Contractors need to follow the contract documents for the work as needed at the school. No students are expected to be at this school for the summer. All questions will need to go through PCI Consulting.

Point of contact at SACS = Joshua Ransom , cell phone = 802-370-3816

The General Contractor shall clean up completely at the end of each day.

The General Contractor will need to remove ceiling tiles in the corridors and classrooms from the ceiling for the Electrical Contractor (EC) to gain access to the ceilings to be able to run new fire alarm wiring and get to the existing fire alarm devices to change them out. These ceiling tiles will need to be placed in an area and protected from damage. At the end of the fire alarm upgrade, these same ceiling tiles will need to be put back up into the ceiling grid. At this time, PCI does not see the need to additionally take the ceiling grid down. But if the GC does take the ceiling grid down, then the GC at the completion of the fire alarm project shall put the ceiling grid back up before reinstalling the existing ceiling tiles.

On Drawing FA1, there is a General Note 7 that the GC is to remove from the Electrical Subcontractor work, and the GC to provide these items. At existing suspended 2 x 4 ceiling tile; where the fire alarm devices have been removed by the EC, and new devices are not to be reinstalled at the same locations, the GC to remove and dispose of existing ceiling tile that had been cut to accept existing devices and GC shall provide new 2 x 4 suspended ceiling tiles. Ceiling tiles to match existing. GC to carry an Allowance of 211 - 2 x 4 replacement ceiling tiles. GC to note this allowance carried on the Bid Form.

The General Contractor shall provide a provision in their bid, that if any ceiling tiles are damaged during either removal, storage, or placing them back up into the ceiling grid; that we will take an existing classroom that has those ceiling tiles and use those as fillers back into the existing building ceiling grid. Then the classroom that we took all of the ceiling tiles from, the General Contractor to provide new ceiling tiles for just that ceiling in that classroom.

At existing hard ceilings (gypsum wallboard), tectum ceilings, and walls: Where existing fire alarm devices have been removed by the EC, and new fire alarm devices are not intended to be installed at the same locations, the EC shall provide new cover plates.

There are nine (9) windows located on the Mezzanine Level of the building that have tested positive for PCBs. The GC to procure the services of an abatement contractor to abate and remove these windows by proper means. This abatement contractor to carry all State of Vermont permits associated with the removal and safe practices with this work. This abatement contractor will then be responsible for closeout of all permits and forward all paperwork to the GC and MRUSD at the completion of the project. At this time, we have assumed that the PCBs have not leached into the building construction. Once these windows have been removed, the GC to seal the openings weathertight upon at which time that the new windows arrive to be installed.

Under the Base Bid, the General Contractor will need to remove sixteen (16) windows and doors, prepare the areas for newer smaller windows and placement of new doors. This work is located at what we are calling the front of the building, the side that faces the main parking lot. There is an alternate bid to remove and replace seven (7) windows located at the back of the building. We have been told by a vendor that the windows are an eight to nine week lead time. So time after signing the contract to get the window vendor on site for final measurements will be critical.

The General Contractor will need to protect the school from damage, weather, and intruders as these existing windows and doors are removed, while the new walls are being constructed, and before the new windows and doors will be installed.

The General Contractor under this RFP shall carry all costs associated with sealing all wall penetrations. Penetrations shall have the appropriate caulking to fill in between the interstitial space of the pipe or conduit and the existing wall(s).

The General Contractor along with their subcontractors shall obtain all construction trade permits necessary for the project complete and for the duration of this project. The contractor will then be responsible for closeout of all trade permits and forward all paperwork to the MRUSD at the completion of the project.

The project award date is April 16, 2025. Pricing on the project to be held for the duration of the project. The project start date is June 15, 2025 and to be substantially completed by August 15, 2025 (schedule may be dependent upon lead time of equipment).

PROJECT GENERAL SERVICE:

The General Contractor shall be expected to perform all professional services consistent with the industry accepted roles of a **lead contractor**. In general, the deliverables shall include, but shall not necessarily be limited to:

1. Attending meetings with the Project Manager, Owner, Facility Manager and/or Engineer as necessary, throughout the construction document period. These meetings will be held

every two weeks, on-site or virtual up to the start of construction. After construction has commenced, project meetings will be held weekly on-site. Location within the building to be determined.

- 2. Follow all requirements of the **Non-Negotiable** AIA A101 Form.
- 3. Construction phase planning and coordination with the Owner's Project Manager and Facility Manager for access and coordination within the project site.
- 4. Work with the Owner, Facility Manager and Project Manager and others to prepare a detailed construction schedule.

DEFINITIONS, CONTRACT TERMS AND CONDITIONS:

Default – Owner shall have the right to declare the firm in default if:

- a. the firm becomes insolvent;
- b. The firm makes an assignment for the benefit of creditors;
- c. The Firm voluntary or involuntary petition of bankruptcy is filed by or against the firm or
- d. The firm is unable to provide evidence of required insurance coverage as set forth below. If the firm is declared in default, or in the event the firm forecloses for any reason, the Owner shall have the right to exercise termination options.

<u>Firm</u> – Any combination Companies and their respective sub-contractors that are required to provide the services requested.

<u>Indemnification</u> – The firm must agree to defend, hold harmless, and indemnify the Owner, their officers, agents and employees against any and all claims, or injuries to any person or firm, arising out of the actions of the firm, its officers, agents, or employees in fulfilling the terms of its contract with the Owner.

Non-Transferable – The firm shall not have the right to transfer or assign the contract to any other person, company or corporation.

<u>Payment Terms</u> – To be determined. If, in the opinion of the Owner, the quality of service is unsatisfactory or if any other non-performance or substandard issues arise, payment may be withheld. The amount and withholding period are at the discretion of the Owner.

Provide - furnish and install, complete and ready for intended use.

Shall - a term that means mandatory and indicates a requirement that must be implemented and verified. A term used in requirement specifications to denote something that is required.

<u>Termination for Performance</u> – The contract may be terminated at any time by the Owner for unsatisfactory performance. In such a case, the Owner will provide written notice to the firm citing the unsatisfactory performance, giving the firm ten (10) working days to improve its performance to the satisfaction of the Owner. In the event that the firm's performance does not improve to the satisfaction of the Owner, the contract for services may be immediately terminated.

<u>Termination Options</u> – In the event of a contractual termination, the Owner reserves the right to employ another firm to complete the term of this agreement. The original firm shall be responsible for any extra or additional expense or damages suffered by the Owner. In that event, the firm shall be required to indemnify the Owner for any loss that may be sustained.

The contractor acknowledges that they fully understand the scope and the nature of the work to be performed. The contractor shall be wholly responsible for the measurements, quantities, and other information necessary for materials, labor, and other costs associated with the project work.

MARK-UP ON CHANGES:

List the percentage markup for project management, general conditions, Payment and Performance Bond, overhead, and profit for changes in the work (Change Orders). This markup percentage will apply to all components of the Change Order, including subcontractors, in-house labor, and materials.

OTHER PROJECT COSTS:

<u>Performance and Payment Bond</u>: Provide a fixed amount for a Performance and Payment Bond for 100% of an assumed \$100,000.00 Construction Cost. Bond costs for Change Orders shall be included in the markup percentage included elsewhere in this Bid.

<u>Property Insurance Deductible</u>: The Construction Manager shall be responsible for the Owner's property insurance deductible for all project related claims against the Owner's property insurance. The deductible is \$10,000 /claim. This will not be an eligible Cost of Construction.

PROPOSAL REQUIREMENTS AND CONDITIONS:

In order to be eligible for consideration, proposals must meet the following conditions:

1. All proposals must be submitted on the Bid Form that is part of this RFP.

- 2. Proposals should be inclusive of all project costs including materials, labor, necessary permits, and equipment as detailed in the Scope of Work.
- 3. Pricing shall be free of any sales tax. MRUSD is tax exempt and will provide a certificate stating such.
- 4. Proposals shall be binding and prices shall remain in effect for the duration of the construction period to the completion of the project.
- 5. Proposals must be accompanied by the required bid bond Form.
- 6. Proposals shall be signed and clearly identify the name, address, and telephone number of the interested party.
- 7. Proposals must be submitted by email, on or before 2:00 p.m. Friday April 4, 2025. To Tom Yandow at tyandow@pcivt.com via email only.

Failure to meet all requirements may result in disqualification of proposals.

BID GUARANTEE:

The undersigned Bidder further agrees to execute a contract for this Work in the above amount and to furnish surety as specified within [10] ten days after a written Notice of Award, if offered within [30] thirty days after receipt of bids, and on failure to do so agrees to forfeit to Owner the attached bid bond, as liquidated damages for such failure, in the an amount constituting five percent (5%) of the Base Bid amount above.

- The bid will be for the complete work as described above, as called for in the Specifications, indicated on this RFP, or as reasonably inferable from either or both, including the work of all subcontractors, as described herein.
- All Bidders are instructed to examine the Drawings carefully, to read the Project Manual
 and to visit the site of this work to ascertain personally by investigation and observation,
 the extent and character of the work to be performed, the location and availability of
 the various utilities and the present condition of the site.
- The successful Bidder shall furnish the Owner with certificates of insurance in the amounts indicated or other amounts as required by law, whichever is greater
- The Owner reserves the right to waive irregularities or informalities, and to reject bids for any reason.

There will be mandatory pre-bid site visit on March 24, 2025, starting at 3:30 PM that all firms who intend to submit a bid are encouraged and are required to attend.

The General Contractor bid form, as attached within this RFP must be submitted by the deadline April 4, 2025 @ 2:00 PM by email to:

ADDENDUM:		
Bidder acknowledged receipt of the following	ADDENDA: (List addendum number and date)	
1.	2.	
Business Company Owner Signature: Date of Signature:		
Date of Jighature.		

GENERAL CONDITIONS OF THIS CONTRACT:

1. General

- 1.1 The Work of the contract shall consist of construction materials, labor, equipment, controls and services required by the Drawings, Specifications and other Contract Documents, or as reasonably inferable from any or all of the Construction Documents. The Work shall be for the whole of the project as described in the Construction Agreement.
- 1.2 The Work of the project shall comply in all respects with applicable federal, state, county and/or city regulations, laws and codes. Required building and trade permits shall be obtained by the Contractor before beginning construction.
- 1.3 Materials and workmanship shall be equal to the highest standard and shall be to the satisfaction of the Owner. They shall also be in accordance with current industry standards such as: the American Society of Testing Materials, The American Water Works Association, and The National Board of Fire Underwriters.
- 1.4 Substitution of items will not be permitted unless specifically approved by the Owner in writing.

2. Owner

- 2.1 The Owner shall furnish the Contractor with a survey of the project site if required.
- 2.2 The Owner shall obtain and pay for the necessary approvals, easements and/or variances required for the construction of the project.
- 2.3 If the Contractor fails to complete the Work, or part of the Work, of the Agreement in accordance with the Construction Documents, and fails to correct such discrepancies, the Owner may, by written order, stop work on all or part of the project until the cause has been corrected.
- 2.4 The Owner reserves the right to occupy the building space, or such portions thereof as may be desired, at any time without in any way invalidating this Agreement.

3. Contractor

- 3.1. The Contractor shall be solely responsible for the Work described in the construction agreement. They shall have complete control over construction methods, techniques and procedures and shall supervise work with their best skill and attention.
- 3.2. The Contractor shall pay for all labor, equipment, materials and services required to complete the Work as described in the Construction Agreement as well as building permits and other governmental fees, licenses and inspections necessary for the proper completion of the Work.
- 3.3. Contractors and Subcontractors will coordinate their work with that of other Contractors so that all work will be in harmony with the other Contractors on the project.
- 3.4. The Contractor warrants to the Owner that materials and equipment required to complete the work on the project will be of good quality and new, unless otherwise specified.
- 3.5. The Contractor shall take care in working near existing areas to protect them from

- damage. The Contractor shall be responsible for any damage to existing areas and will repair such damage, at the Contractor's expense, to the Owner's satisfaction.
- 3.6. The Contractor shall keep the project site and surrounding area free from waste materials, rubbish, and dust which results from its work on the project. Removal, hauling, and disposal of rubbish and waste materials shall be the responsibility of the Contractor.
- 3.7. The Contractor shall be held responsible for all damages resulting from its employees, or its subcontractors, errors, omissions or negligence in the performance of the Work of the Construction Agreement.
- 3.8. The Contractor shall hold harmless the Owner from and against claims, damages, losses, expenses, legal fees or other costs resulting from the Contractor's performance of the Work of the Construction Agreement.
- 3.9. The Contractor shall provide the Owner access to the Work.
- 3.10. Construction work will take place within an occupied housing facility. Occupants and staff health and safety must at all times be a paramount concern. All debris and dust generation must be contained, cleaned, and removed immediately, with the work area left safe and ready for occupancy at the end of each day. The work area shall be considered safe and ready for occupancy when they are free of dust/debris, construction waste, sharp objects & corners which could cause injury, trip hazards and/or other hazardous conditions.

4. Subcontractors

4.1 The Contractor shall select the subcontractors, except that it shall not use subcontractors to whom the Owner has a reasonable objection. The Contractor shall not be required to use a subcontractor to whom it has a reasonable objection.

5. Disputes

5.1 Any claims or disputes between the Contractor and the Owner arising from this Agreement shall be resolved by arbitration in accordance with the Construction Industry Arbitration Rules of the American Arbitration Association unless both parties agree otherwise.

6. Work by Other Contractors

6.1 Contractors and subcontractors shall work in harmony with others on the project and shall afford the Owner and other subcontractors' reasonable opportunity for the storage of materials and equipment.

7. Changes

7.1 Changes, modifications, additions and/or deletions to the Work under this agreement will only be made by written order signed by the Owner and the Contractor. Any such changes will not invalidate this Agreement. The time for project completion and the project cost will be adjusted accordingly and as agreed upon by both parties in writing. Project extension of time shall be included within the change order that is presented at that time.

8. Time

8.1 If at any time the Contractor is delayed in performing the work under this agreement by the Owner requested changes, labor disputes, fire, or other circumstances over which the Contractor has no control, the contract time shall be extended by the same amount of time as was caused by the delay.

9. Payments

- 9.1 Payments will be made by the Owner to the Contractor in accordance with the payment schedule stipulated in the Agreement.
- 9.2 Payments may be withheld for any of the following conditions:
 - i) Defective work not corrected.
 - ii) Failure of the Contractor to make payments to subcontractors or for materials, labor, equipment, and / or services.
 - iii) Continued failure to perform the work in accordance with the terms and conditions set forth in this Agreement.
 - iv) Legal or other claims by third parties relating to the work performed under the Agreement.
- 9.3 Final payment shall become due when the Work of the Agreement is completed in accordance with the Construction Documents. A partial release of lien will be required for the value of each pay request. A full release of the lien when all final punch list items are addressed to the owners satisfaction.

10. Insurance

- 10.1 The Contractor agrees to take out and maintain during the life of this Contract insurance with a company or companies lawfully authorized to do business in the jurisdiction in which the Project is located and reasonably acceptable to the Owner, as follows:
 - i) Worker's Compensation or similar Insurance as required by the laws of the state in which this Work is to be performed or by applicable federal law,
 - ii) Employer's Liability Insurance,
 - iii) Comprehensive or Commercial General Liability Insurance covering bodily injury, death and property damage with Bodily Injury Liability in an amount not less than \$2,000,000 per person and \$2,000,000 per occurrence and Property Damage Liability in an amount of not less than \$2,000,000 per occurrence. The explosion, collapse and underground excavation exclusion, commonly known as the "XCU Exclusion," shall be eliminated and coverage for these perils shall be provided. Coverage shall include the Broad Form Property Damage endorsement (including Completed Operations).
 - iv) Comprehensive Automobile Liability Policy with Bodily Injury Liability in an amount not less than \$500,000 per person and \$1,000,000 per occurrence, and Property Damage Liability in an amount not less than \$50,000 per occurrence. This Policy shall cover all Owned and Non-Owned Vehicles and to include Non-Ownership and Hired Car Coverage.

- v) Broad Form Completed Operations (or Products) Liability for the same limits as specified for the period of two years after final payment is made to Contractor,
- vi) Independent Owner's Protective,
- vii) Contractual Liability specifically including this Contract for the same limits as specified in c) above, and
- viii) Any additional insurance required for the performance of Contractor's Work by the terms of the Contract.
- 10.2 Insurance Certificate. The Contractor agrees to obtain from its insurance carrier(s) an insurance certificate or certificates in the form required by the Owner, and indicating the Project name, within five days of the effective date of this Contract, and in every event prior to commencement of on-site Work by the Contractor. Such certificates shall certify that coverage as required above is in full force and effect and shall also include a provision whereby the Owner will be given 30 days written notice in the event of cancellation or modification of any of the coverage. The Owner may withhold such payments as it may deem necessary to guarantee compliance with these requirements or to indemnify it, against claim or loss that should be covered by the required insurance. The Certificate of Insurance shall show any Umbrella Policy Contractor carries in the same manner as all other insurance policies.
- 10.3 Additional Insureds: The Contractor is required to name the Owner as insured or additional insured on each of these policies except for Worker's Compensation. Each policy shall state that such insurance is primary and any insurance maintained by the Owner shall be excess and noncontributory.
- 10.4 Indemnification: To the fullest extent permitted by law, the Contractor shall indemnify and hold harmless the Owner, and any other person or entity required by the specifications, and agents, officers and employees of any of them, from and against any and all claims, damages, losses, and expenses, including but not limited to attorneys' fees, arising out of or resulting from performance of the Work, provided that such claim, damage, loss or expense is attributable to bodily injury, sickness, disease, or death, or to injury to or destruction of tangible property (other than to injury to or destruction of all or any portion of the Project or the Work which injury or destruction is paid for by property insurance, without right of subrogation), but only to the extent caused by the negligent acts or omissions of the Contractor, its subcontractors and suppliers, and anyone directly or indirectly employed by them or anyone for whose acts they may be liable, regardless of whether or not such claim, damage, loss or expense is caused in whole or in part by a party indemnified hereunder.

11. Work Safety

- 11.1 The Contractor shall at all times furnish a Competent person who is qualified/certified by the governing safety association to identify, evaluate, and remedy an unsafe situation in the workplace.
- 11.2 The Contractor will follow all safety regulations outlined by OSHA or VOSHA, whichever is more stringent.
- 11.3 The Contractor will, at all times, implement an active and ongoing safety policy, which will apply to the primary Contractor and Subcontractors and all their employees.

- 11.4 The Contractor shall, at all times, keep the safety of the occupants and staff as the paramount priority. Methods may include, but are not limited to, signage, barriers, dust control etc.
- 11.5 The Contractor shall at all times secure and/or monitor any tools, equipment, and work areas not immediately in use. The presence of the occupants should be expected. Their safety and isolation from construction activities is a paramount priority.
- 11.6 The Owner or Owner's Representative reserves the right of "stop work authority" if they determine that there is an imminent risk.

12. Correction of Deficiencies

- 12.1 The Contractor shall promptly correct any deficiencies in the work, any work not in accordance with the construction documents, and/or any work rejected by the Owner.
- 12.2 The Contractor and Subcontractors shall provide guarantees of workmanship and material warranties for at least one (1) year from the time of completion of their work under the agreement.

13. Termination of the Agreement

13.1 If the Contractor fails to carry out the work in accordance with the agreement and other construction documents, the Owner may, upon seven (7) days written notice to the Contractor, terminate the contract, and finish the work by whatever method the Owner determines. If the cost of completing the work exceeds the balance due under this agreement, the difference is to be paid to the Owner by the Contractor.

14. Jurisdiction

14.1 This agreement shall be governed by the laws of the State of Vermont.
